classic lab stool collection

low-maintenance, simple adjustment stools

office master[®]
INNOVATIVE EXCELLENCE IN ERGONOMIC SEATING

classic lab stool

Office Master designed the CLS series & the CL55 to make life easy for everyone from facility managers to bank tellers to lab technicians alike. Simplicity comes from designs that are based on our PA series chairs.

Ease-of-use comes from the standard Grande Spider Package (GSP) that takes the guesswork out of footring adjustment and gives CLS chairs superior mobility.

CL55 (shown w/KR200 arms) Ideal fit for users who value mobility and ease-of-use

CLS61 (shown w/JR37 arms) Attractive and versatile stool with the amazing contours and "sit" of the PA55

CLS53 (shown w/KR24 arms)
Great for petite to medium builds and
based on the design of the PA53

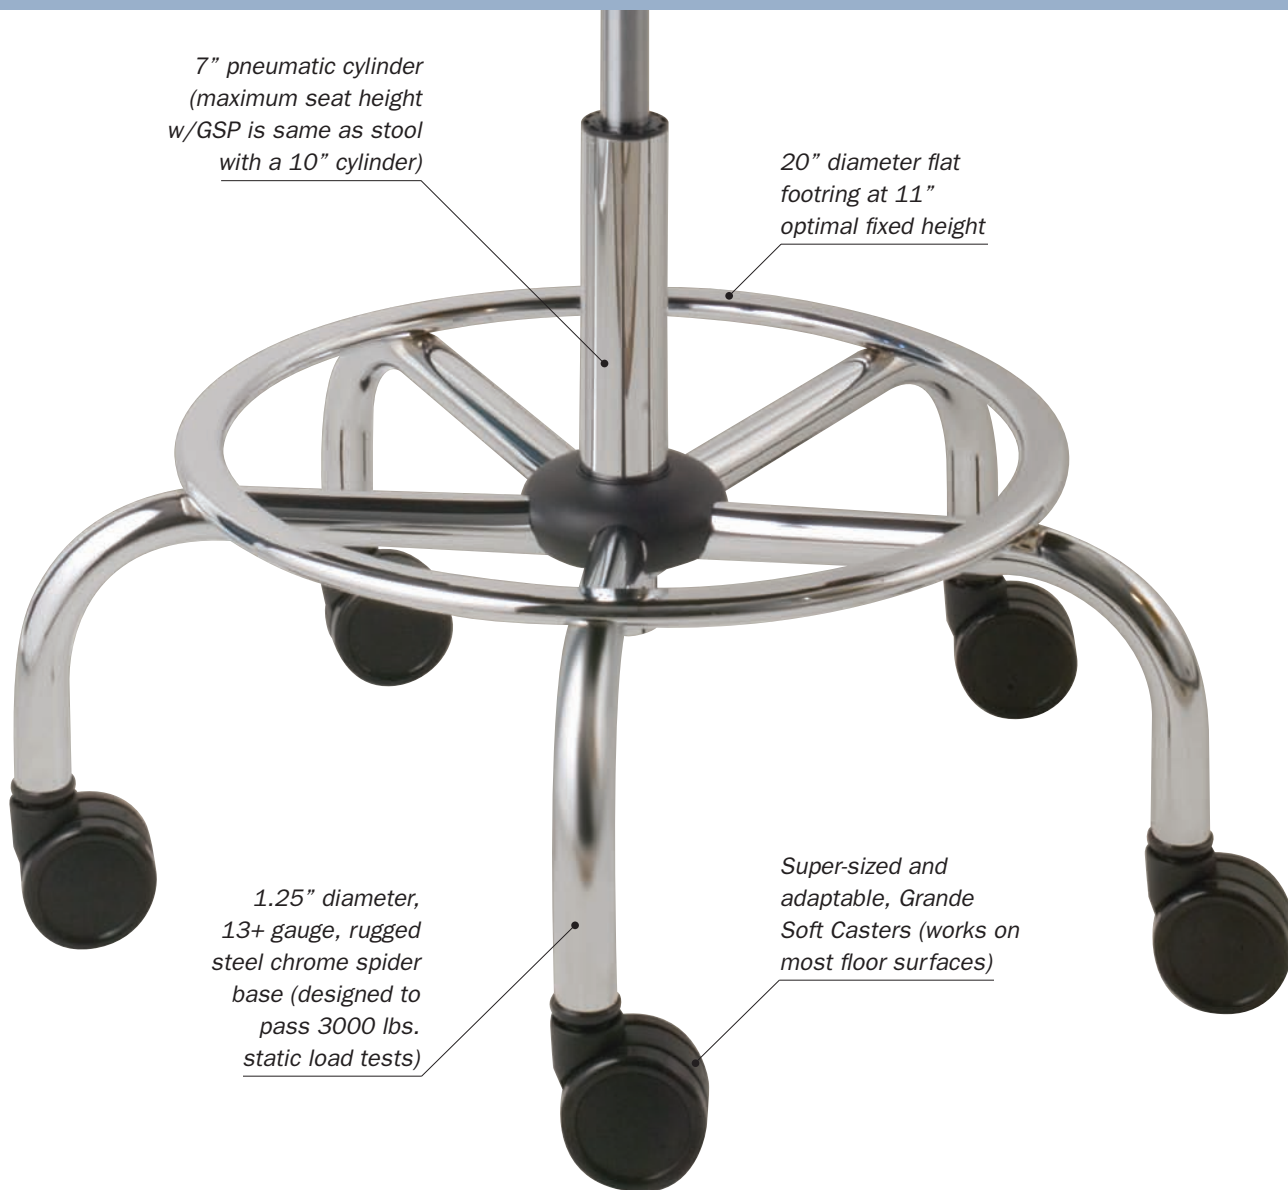

CLS57 (shown w/JR37 arms) Extra
generous seat and back and a design
inspired by the PA57

Gain peace of mind from user-friendly control mechanisms and OM's standard 12-year limited warranty. We stand behind our chairs, so that you can be even more comfortable sitting in them.

grande spider package

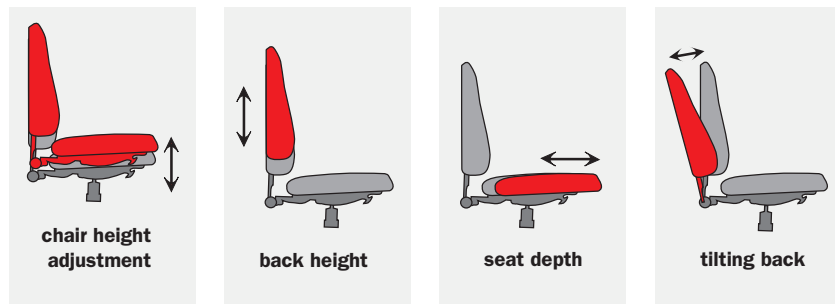

7" pneumatic cylinder
(maximum seat height
w/GSP is same as stool
with a 10" cylinder)

20" diameter flat
footring at 11"
optimal fixed height

1.25" diameter,
13+ gauge, rugged
steel chrome spider
base (designed to
pass 3000 lbs.
static load tests)

Super-sized and
adaptable, Grande
Soft Casters (works on
most floor surfaces)

classic lab stool adjustments

Certain combinations are so perfect that you can hardly imagine one thing without the other. Our Grande Spider Package is like that. Combining adaptable 75mm Grande soft Casters, a 7"chrome cylinder, and a chrome spider base with ideally positioned footing... It's a mouthful, but listing the GSP's many benefits is the hard part; using it is easy.

From great designs to a full range of options such as specialized casters and adjustable arms, your working environment's ergonomic health is Office Master's specialty. Please consult your seating specialist or an Office Master representative for further details and recommendations.
