

Advantage—Single and Advantage—Dual Platforms

Adjustable Keyboards - Solo Platforms

Keyboard platform and palm support with swivel-out mouse platforms

Mouse-Forward™

The Advantage Platforms feature a Mouse-Forward design, for easy movement within the primary reach zone.

Neutral wrist position is the key to comfort.

All palm supports are upholstered with LeatheRite™, providing the feel of soft glove leather and the durability of synthetic fiber. Its hypoallergenic, breathable micro porous structure dissipates heat in warm weather and retains it in cold weather. For superior palm support and comfort, choose our JelRite™ palm supports with a thermal reactive memory foam that minimizes pressure against the palm.

Thoughtful Features

On all platforms, our palm supports are easily removable to meet the user's unique requirements. All Ultra-Thin platforms have the Optimizer™, an integrated keyboard cord management feature, along with a built-in document holder and mouse cord retainer.

Durable Platforms

Our ¼" Ultra-Thin phenolic minimizes the distance between the forearm and thigh, providing a greater range of ergonomic fit.

At WorkRite we believe that every body has a right to work comfortably and safely for maximum productivity. You can trust WorkRite - as 75% of Fortune 100 companies have - to create innovative solutions that flex to the diverse range of user needs, preferences and settings at work today.

Advantage—Single and Advantage — Dual Platforms
